OFFICE OF THE ASSISTANT DIRECTOR OF SERICULTURE, GOVERNMENT SILK FARM, CHANNAPATNA.

Notification dated 13th April 1954.

TENDER FOR PIERCED COCOONS.

Sealed tenders are invited by the Assistant Director of Sericulture, Government Silk Farm, Channapatna, for the disposal of Mysore and Foreign pierced cocoons produced in Government Grainages in the State from 1st April 1954 to end of 30th September 1954.

Conditions.

1 Tenders should reach the undersigned in sealed covers not later than 11 A.M. on 4th May 1954. Each tender should be accompanied by a sum of Rs. 200 as earnest money and the tender cover superscribed 'Tender for purchase of pierced cocoons'.

2 Tenders will be opened at 4 P.M. on the 4th May 1954 in the presence of such of the tenderers as may be present at the time. The name of the successful tenderer will be notified on the same day.

3 The earnest money of the successful tenderer will be treated as deposit and earnest money of such of the tenderers whose tenders are not accepted will be returned on the same day.

4 The Assistant Director of Sericulture, Channapatna, will reserve the right to accept or reject any tender without assigning any reasons therefor. No enquiry regarding the acceptance or rejection will be entertained.

5 Tenderers should quote the rates separately for Mysore and Foreign pierced cocoons per lb., in words as well as in figures.

6 The pierced cocoons will be delivered at the Government Silk Farm, Channapatna, each month on "Cash and Carry Basis".

7 The tenderers should be prepared to bear the cost of transporting charges of pierced cocoons received from other grainages in the State to Channapatna Farm either by bus or by rail or by the Departmental Van.

8 The tenderers should make their own arrangements to remove the pierced cocoons immediately after the delivery. In case of default, the Assistant Director of Sericulture, Channapatna, resumes the right to sell the pierced cocoons and to debit the difference, if any, to the tenderer. In case the price realised is higher, the tenderer will not be entitled to receive the excess so realised. The tenderer also makes himself liable to the cancellation of the contract and forfeiture of the earnest money.

9 The decision of the Assistant Director of Sericulture, Channapatna will be final and binding in all matters concerning the tender.

10 The successful tenderer should execute a mutchalika on a stamped paper that he would abide by all the conditions of the tender notification.

Deputy Commissioner.

OFFICE OF THE CHAIRMAN, MYSORE CITY IMPROVEMENT TRUST BOARD, MYSORE.

Sale Notification dated 12th April 1954.

Rare Opportunity to Businessmen and Investors. **Best shop sites in the best Business locality**

The Public are hereby informed that 20 best shop sites in the layout of the *New Statue Circle* in the centre of the City near Devaraja Market and Lansdowne Buildings, will be sold by the Chairman or any person authorised by the Chairman, City Improvement Trust Board, Mysore, on the spot in public auction on the date and time mentioned below subject to the conditions noted hereunder. As these sites are situated in the best business centre of the City, it is a rare opportunity to Business people and investors.

1. The auction purchaser is bound to the conditions mentioned in paras 6, 7, 8 and 9 of the G. O. No. 8056-8—Ml. 127-18-2, dated 31st December 1918.

2. The auction purchaser should deposit immediately when the sale is concluded, 25 per cent of the bid amount and pay the balance within 15 days from the date of sale, failing which the amount deposited by him will be forfeited.

3. In default of payment of the full amount of the bid within the prescribed period, the Chairman may direct the resale of the site after defraying the expenses of the original sale out of the deposit amount. If the proceeds of the resale be less than the price bid by the defaulting purchaser, the difference will be recovered from the defaulting purchaser.

4. The sale is subject to confirmation by the Chairman, City Improvment Trust Board, Mysore, who may fix up a higher price than the bid amount if the latter were to be low. The sale is further subject to approval by Government.

5. The purchaser after the sale is confirmed should execute the Mutchalika in the form prescribed which includes the conditions mentioned in the Government Order noted above and should put up a building on the site as per design approved by the Trust Board.

6. The Trust Board is not responsible for the inaccuracy, if any, in the dimensions and description of sites.

7. The Sale Officer may fix the minimum bid, etc., for each site.

8. Every bidder should deposit Rs. 200 before he bids which is refundable in case his bid is not accepted.

9. The layout plan of the sites and the dimensions of the sites and any other information required may be had in the office during office hours.

10. The sites will be sold on *17th day of May* 1954 necessary (17-5-1954) commencing from 9. 15 A.M. and if on the following day also commencing at 9. 15 A.M.

11. It may be noted that some of the vacant sites adjoin the sites already disposed of and on a few sites construction is already taken up with common walls situated centrally and an agreement is already obtained from such site owners regarding common walls. These arrangements are available for inspection by the intending bidders. In all such cases the successful bidders are liable to share half the cost of the common wall with the owner who has already built it and acquire common right over the same.

NOTICE.

Sewage treatment Plants for the main outfall of Mandi, Lashkar and other Mohallas in Mysore.

Designs and quotations for a one million gallon per day (M. G. D.) Sewage Treatment Plant to be extended later to three M. G. D. at 2nd mile on Mysore-Kesare Road, are invited from firms specialised in this class of work, so as to reach the undersigned on or before *15th May 1954*. Intending tenderers are expected to inspect the site where the plant is proposed to be erected and should include in their quotations all contingent items to complete the works in all respects.

1 Time required to complete the works may be stated. The work is urgent. Other things being equal, preference will be given to the firm quoting the shortest time.

2 Penalty for non-completion in time is Rs. 250 per week.

3 The successful tenderer will be required to deposit a sum equal to 5 per cent of the total estimated cost or Rs. 5,000 whichever is less and to execute the usual contract bond before execution of work. In addition to the above deposit, he should agree for the deduction at 5 per cent on the value of work done in work bills towards security deposit.

4 The final acceptance of the tender will rest with the undersigned, who does not bind himself to accept the lowest or any tender or to assign any reason whatever, for the rejection of any tender.

5 The different items of work with brief descriptions are noted in the enclosed tender abstract.

6 Detailed descriptions, specification and modes of working of the different plants are to be submitted by the tenderer for each item of work.

7 Tenders are to include the supply of all mechanical and electrical equipment, construction of all civil engineering works including designs thereof, to house the equipment starting up the plant and maintaining the whole plant for a period of 12 months after starting, inclusive of repairs to and replacement of any part or parts, without any cost whatever to the Trust Board during the period of maintenance. Spare parts and working tools for working the plant for a period of 3 years should be included.

8 Tenderers have the option of offering any approved type of plant or individual units comprising the plant. Evidence shall also be submitted to prove that such plant or units have been satisfactorily operating at least in a dozen places and that these are suitable for local condition in Mysore.

9 The tender rate must be inclusive of sales-tax and must hold good till the completion of the work in all respects.

10 The terms of transaction regarding the mode of payment (*i.e.*, whether payments will be accepted in one lump after completion of the work in all respects and necessary certificate of satisfactory working of the plants, or whether payments are expected in instalments during execution) must be made clear by the tenderer.

11 The quotations for the plant shall include—

(*a*) All necessary civil engineering works;
(*b*) The mechanical and electrical equipment completely erected for all units from bar screen to digester;
(*c*) Fences of suitable designs 2' 6" height all round open tanks;
(*d*) Water supply;
(*e*) Electrical lighting;
(*f*) Starting the plant and maintaining for 12 months inclusive of repairs to and replacement of any part or parts;
(*g*) Spare parts and tools for working the plant for a period of *three years*,

complete in all respects.

12 Tenderers should inspect the site of works and dig their own trial pits to find out the nature of soil they meet with. No extras will be considered for any item.

13 The right to modify or alter the designs of civil engineering works is reserved.

14 Any additional items will be paid for at rates provided in the current sanctioned schedule of rates of the City Improvement Trust Board.

15 Rates for non-scheduled items will be fixed as per data of working cost.

S. LINGANNA,
92 *Chairman.*

Tender Abstract showing specifications for the sewage treatment plants required for the main outfall of Mandi, Lashkar and other Mohallas in Mysore—(capacity of the sewage treatment plant is one million gallons per day).

Mechanical Bar Screens.—(2 feet wide and 3 feet deep approximately).

A screen shall be provided to handle the maximum flow of three times the average daily flow with 1" openings between bars which shall be inclined or curved to prevent the retained screenings from falling down. The screenings shall be removed mechanically from the bars and brought up to the platform above at ground level. The screen shall be operated automatically by means of a float control arrangement when a pre-determined loss of head through the bars is reached.

Detritor or Grit Chamber.—(12' × 12' × 3½' deep approximately).

The Grit Chamber Mechanism shall be a continuous mechanically operated unit, capable of removing 95 per cent particles of specific gravity 2·3 above 100 mesh or 15 m.m. diameter with not more than 3 per cent organic matter after washing. Provision must be made for washing the settled grit under all conditions. The grit must be discharged in an inoffensive and fairly dry condition, such that it can be used around the plot for sand beds, fills etc., etc.

The collecting mechanism shall be robust and sturdily built and capable of taking the sewages of load expected. An over-load alarm device shall be included to stop the mechanism in case of excessive load before the machinery can be damaged.

Measurement of flow.—There shall be provided a flow meter installed in a sump attached to an open flume to indicate, record and integrate the flow. It shall show variation of flow from 0 to 3 M.G.D.

Clarifier.—(45' Diameter and 9' deep approximately).

This shall be a continuously mechanically cleaned tank circular in shape and shall have enough surface area and volume so as to obtain removals of at least 60 per cent to 65 per cent suspended solids and 30 to 35 per cent B.O.D. The over flow rate shall not be more than 4·5 feet per hour and detention period not less than 2 hours. The tank will be designed on the continuous flow principle with the sewage admitted at the centre and flowing upwards and outwards over a peripheral V notch steel weir into an effluent channel. It shall provide for positive mechanical removal of the settled sludge by two rake arms extending over full diameter of the tank. Scum baffle shall be provided to prevent the floating scum from flowing over the V notch steel effluent weir and automatic skimming device be provided to collect the scum and discharge it into a scum trough. The clarifier shall be provided with an overload alarm device which prevents it from an accidental damage in case of overload on the machine by shutting off the motor.

Sludge pump.—Of suitable size.

This shall be a plunger type sludge pump having large unobstructed waterways and valve openings, enabling it to handle sludge carrying a high proportion of solids.

Digester.—(60 feet diameter and 25 feet side depth approximately).

The sluge shall be digested in a concrete tank having a capacity at least 75,000 C.ft. at the rate of 1·5 C.ft. *per Capita*. The digester shall be entirely closed. An efficient mixing arrangement shall be provided for mixing the incoming sludge with the sludge in the tank so that the entire tank contents are turned over in an hour or less. On digester roof shall be provided a vacuum and pressure relief device with flow arrestor including a shut off valve.

For burning sludge gas away there shall be provided necessary gas equipment including a waste gas burner sediment drip trap and excess pressure relief assembly Quotation may also be given for arrangements to collect sludge gas, compressing the same into the cylinders for being used for running Municipal Lorries.

Drying beds.—(Two beds of 125'×60' each are required.) Adequate open sand beds of sufficient area shall be provided to dry the digested sludge. Proper draining arrangement shall be provided for the beds.

Lighting.—Adequate lighting is to be provided with all necessary switches, fuse boxes, wiring, electrical lamps and fittings in the pump houses, road lighting and 2 flood lights mounted at a height of 25 feet above ground shall be provided.

Water supply.—There is no water supply available at site. The tender must include for sinking a well 10 feet in diameter, 30 to 50 feet deep, stone revetted, complete with an overhead tank in reinforced cement concrete of 1,000 gallons capacity and necessary pipe connections with taps in suitable places.
